WORK EXPERIENCE

Knowbly (former Metrodigi)
Senior Developer and Front-end Tech Lead

2014 – Present   *Remote*

Knowbly is a tech company based in Californa, USA, that specializes in eBook conversion, enhancement, and authoring services. Clients: Pearson Education, Scholastic, Cengage / National Geographic Learning, Apple, Microsoft, Arvato Bertelsmann. Our innovative technology and brilliant team produce digital content that is engaging, interactive, and pedagogically effective.

Achievements/Tasks

- Automated all the deploying process using CI/CD.
- Led several teams successfully.
- Added a series of conventions to make the teams more productive (ex: Pull requests, code conventions, etc).
- Have been part of the core team that designed and built the main app from scratch using cutting-edge technologies.
- Learned a lot of new technologies like VueJS, Backbone, puppeteer among others.
- Applied all my knowledge to make the company more agile.
- Always have ideas on improving the UX and the easiest way to solve problems.
- Met deadlines consistently.
- Trained 2 employees to start coding in our project.
